

# BLADDER EXPANSION TANK

## SERIES BET

Series BET

### APPLICATION

Series BET precharged bladder expansion tanks are designed to absorb the expansion forces of plumbing, heating, or cooling system water. The tanks maintain proper system pressurization by holding the system water in the replaceable bladder. The BET series tanks eliminate problems such as tank corrosion and waterlogged tanks.

### DESIGN FEATURES

- Designed and built in accordance with the ASME Code Section VIII, Division I
- Full acceptance bladder
- Vertical or horizontal installation
- High quality butyl rubber replaceable bladder
- Factory assembled and tested
